DECATUR, ILLINOIS, SATURDAY, SEPT. 24, 1881.

On the death of Lincoln, Garfold quoted in the House from memory SUMMER GOODS. the lines of Tennyson;

Divinely gifted man.
Whose life in low estate began,
And on a steeple village green.
Who breaks his histir's invisious bars,
And greeps the skrits of lappy elemon,
And create the blee of streamstance,
And grappies with his off steeple

The lines will be forever applied to Garfield himself. On the cosesion when he quoted the poetry, Gan-field said, and the words have a sin-

gular force and propriety now: There are times in the history of men and nations when they stand so pear the veil that separates mortals and immortals, time from eternity, and men from their God, that they can almost hear the breathing and feel the pulsations of the heart of the Infinite. Through such a time has this nation passed. When 250, 000 brave spirits passed from the field of honor through that this will to the presence of Gld, and when at last its naturing folds, and when at last its parting folds admitted the martyred President to the company of the dead heroes of the Republic, the Nation stood so near the veil Summer White and Colored Marselles, Vests that the whispers of God were heard by the children of med. Awe stricken by His voice the American people knelt in tearful reverence. and made a solemn covepant with God and each other that this Nation should be saved from its enemiss; that all its glories should be restored.

When the congressional train passed a military company was drawn up facing the train, which passed slowly through. Not a sound was heard from the vast crowd. |The congressional train remains twenty minutes behind the funeral. Many of the mourners have retired to rest. Last evening we received a complimentary invitation to attend the Mattoon Horse Fair, to be held at Mattoon Oct. 5th to 8th, inclusive. We thank the secretary, Mr. Joseph, for so kindly remem bering us, but we guess we won't take in his show, as we have witnessed such extra fine racing at our own fair this week. Four days of horses and dust ought to satisfy any ordinary person for one year.

All who attend will be interested.

Ex-Managal Brockway was chief of police at the fair grounds this week. He reports that everything was remarkably quiet about the grounds. There were but two arrests, and they were parties who attempted to beat their way into the grounds by jumping over the fence. They were made to fork over the gate fee and were released.

THE wind to day blew down quite : number of mourning decorations in front of business houses, and they had to be more securely (estened.

The morning papers of to-day each consided a sensational article about what they termed a "mysterious trunk" that passed through Decatur yesterday as baggage checked for Chicago, and told Macon county fine corn. It is as good how the railway officials along the line of the Wabash were troubled about its contents because of the strange and offensive smell that usued from it. One Decatur docur--not Bliss-- 'emphatically declared that the smell proceeding from the trunk was that of a decomposing human body," etc., but it appears Agent flarwood concluded to send the trunk on to Chicago, where it was opened last night, and its contents proved to be—nothing but a lot of clothing and six decomposing prairie chickens. Only that and nothing more. And thus was the "awful mystery" of the odorous trunk solved.

"Camille" Last Night. The scenes for the preof Miss Cartland were varied and expensive. The Nunn Brothers occlusion is a good one.

Some unsophis-ticated spectators on the stand thought the trial of speed among the roadsters was the advertised trot, but when the more knowing ones explained matters there was a general kick all round. It was certainly a had sell on the crowd, and some sort of a trot should have taken place, as there was little else of interest to see so late in the day.

The amphitheatre was pretty well filled with men, women and children at about \$20 o'clock when suddenly the people, apparently in great fright, arose to their feet, and attempted to get off the structure as fast as they could, come of the more nervous persons jumping into the ring. The officers near the band stand rushed forward and succeeded in a measure is uisting the alarm that was spreading every moment. A REPUBLICAN reporter loss investigated the cause of such a general up-rising, and learned that a team had become frightened on the roadway back of the amph theatre, and somebody yelled loudly that the wagon would tour away the supports of the grand stand, and that cry was what startled the people. The following statement which appeared in a recent issue of the St. Lonis Republican, will be of special interest to our city and country readers, as the gentleman named in the paragraph is none other than Dr. N. G. Blalock, late of Mt. Zion township, this county, who went west about ten years ago:

Washington territory home up wonderfully in wheat production, and her Walla Walls wheat ranks high in the San Francisco market and in Great Britain. The Seattle Intelligencer

wheat ranks high in the San Francisco market and in Great Britain. The Seattle Intelligencer says of it:

Wooderful reports come to us from the grain fields of Eastern Washington. The yield per acre in that region has always been entermous, but this year, if we may believe what we bear, it is greater than ever. We will cite but a single instance. Dr. Balock is the leading wheat grower of the country cent of the consendes. He has several farms, and he cultivates in an intelligent, solemific and advanced manner. His product is not only of the best, but it is of the most generous yield. There is probably no one in the United States who gets more-if as much—from the acre than he does. From a tract of 1,800 scree we are tool that he has harvarted this season is,000 busbels. Let the Bastern farmer, who is doing something axtraordinary when he gets fifteen or eighteen bushels from the acre, think of this. Fifty five bushels an acre marketed from a single field of a thousand screet. The docter's whole product, we are toold, is about 19,000 bushels. Owing to the fertility of the soil said the extraordinary yield, wheat can be grown at forty cents a bushel. It is now selling in that country at sixty. Dr. Bislock, we believe, sold this year at fifty-one, and, though he made in the neighborhood of 310,00, he is out of pocket over W.000 by not westing until he had secured the top of the market. Other wheat growers in the eastern countries of Oregon and Washington have all the way from a few hundred bushels to ten or twelve thousand, and among all the other farmajof that vast extent of country as smaller crop than thirty bushels to the acre.

Miss Abbott began her concert Tribune of that city sends her off. for 1881-82 with quite a happy advertising conceit—not so bad as the Abbott kiss, but still good enough for every purpose:

If there is anything that annoys Miss Abbott it is to have the male and female members of her company spouding around each other. The reason Sig. Strini was not re-angaged this season was because he and Miss Maurel were too much devoted to each other, and, therefore, were prone to neglect business. But what threw Abbott into a conniption fit was the discovery, about the middle of last season, that her maid, Maggie, was receiving the devoirs of the stage carpenter. Only the previous season had one of the supernumeraries made love to and wedded Abbott's French maid—a girl she had brought with her from Europe and whom she had learned to think a great deal of. Now, when Abbott found out her second maid, Maggie, was following in the footsteps of her first maid, Nanine, she lifted up her voice and wept sore and travailed in spirit, and commanded her husband, which is called Wetherell, that he should come unto her. And she opened her mouth and taught him, opened her mouth and taught him, searing. "Lo the appeny bath compgie, was receiving the devoirs of the stage carpenter. Only the previous opened her mouth and taught him, saying: "Lo, the enemy hath compassed me round about and hath laid siege unto my maid servant's heart and is about to take her from me. I pray thee make an end to the grievous trouble." And he girded up his loins and hied unto that stage carpenter, and wrought with him and prevailed against him so that he was bounced out of the company. And there is no such thing as marrying and giving in marriage in that company, even unto this day.

The value of this remedy must not be overlooke a the ours of those SYMPATHETIC DISEASES,

Affections of the Kye, Kar, Throat, Lungs and fivocchin Tubes which in many cases accompany a severe case of Catarrh. The inflamed and discassed opodition of the suncoun membrane is the cause of unit tiese troubles; and until the system has been forceging towerly under the influence of the RADICAL CURE, perfect freedom from they cannot be reasonably deproted.

It is but have years since the first habe to California, and is everywhere acknowledged by druggists and physiciant to the most successful preparation for the chromat that with first perfect of Catarrh were compounded. The fact will be deemed of more importance when it is coupled with the statement that within five years over 200 different remachine for Catarrh have been placed on sale, and cloday, with one or two encoptions, their name scanned to recalled by the peri-informed druggist. Advertising may succeed in forcing a few sites but, unless the remachy possess undombted specific medical properties, it is absolutely certain to full last partied Observicy.
